

## Student Endowment Fund

The faculty of Government Zirtiri Residential Science College has been providing financial assistance to students in need of it since 2016. Fund has been derived from the student endowment fund, which is an accrual of monthly collection from the faculty members. Needy students are identified through the mentoring system and the Student Support committee has been assigned to look after collection and distribution of fund. Students identified by mentors are interviewed by the committee to ensure the authenticity and to provide necessary counseling so that funds received by them are utilized properly.
